Internship Evaluation for _____

To the Evaluator – The Rudolf Steiner High School internship experience is an opportunity for a student to gain perspective on the world of work in an area of vocational interest. In exchange for this opportunity, we expect students to provide meaningful service to those who have been generous enough to take them on. While we understand that mundane tasks are inherent to any such short-term commitment, we hope they will gain an overview of your operation as part of their experience.

In order to ascertain whether or not the internship experience has been consistent with our objectives, we hope you will be willing to complete this brief evaluation form.

Has the intern been punctual, dependable and cooperative?

Has the job performance met your expectations?

What were the positive aspects of the student's work and what were the areas that needed improvement?

Would you be interested or willing to have your work place be an internship site again in the future?

Please comment on any aspects of the internship that seems appropriate to you.

Thank you for your willingness to support our students.
